

## Environmental Policy Statement

At Imagine, we recognize our responsibility as a global citizen and we are committed to make every reasonable effort to protect, preserve, and sustain our natural resources throughout our business operations.

To accomplish this, we will establish specific objectives and targets that will direct the efforts of the company to reduce our environmental impact. These initiatives will be based on the following principles:

- To operate always in accordance with all applicable environmental, safety and labor regulations
- To apply the principles of reduce, reuse, and recycle across operations
- To pursue all relevant certifications with reputable environmental organizations
- To raise awareness and encourage employee environmental responsibility in the workplace and home
- To clearly communicate our efforts to customers, suppliers, and partners, and to work in cooperation to reduce environmental impact
- To monitor our performance and continuously improve our environmental practices
